

INVOICING

Invoicing is a sales reporting tool for **online sellers** looking to quantify sales income, VAT liability, unit sales and generate invoices. Incorporating all of the CRM functionality of Customer Manager, Invoicing imports sales from **eBay, Amazon, Play.com** and **ecommerce websites**. Additionally, the software enables users to enter manual sales that can be processed within Invoicing or passed to Sage accounting solutions

FEATURES

- Imports details from eBay, Amazon, Play.com and ecommerce websites
- Creates Amazon Order Confirmation File for upload
- Imports eBay and PayPal fees
- Compatible with eBay listing tools product mapping
- Generates VAT Invoices
- Generates sales reports
- Maintains contact and transaction histories
- Provides at a glance 'trading dashboard'
- Creates sales analysis, graphs and reports
- Exports buyer and transaction details to Microsoft Excel
- Creates buyer details as contacts in Microsoft Outlook
- Exports customisable CSV files
- Generates address labels

BENEFITS

- Saves money for retailers
- Streamlines post sales administration
- Strengthens promotional activity through CRM facility
- Dramatically reduces data entry time

SYSTEM REQUIREMENTS

- Microsoft Outlook 2003 onwards
